

# WEBER HIGH SCHOOL IB PROGRAM

## The IB Diploma Program

The International Baccalaureate Diploma Program is ideally suited for highly motivated students who enjoy pondering the question: why? While many rigorous courses accelerate students through a curriculum, IB courses move at a different pace that encourages in-depth research, inquiry, analysis, critical thinking and connections across all curriculum areas.

The IB Diploma Program provides a deep, thought-provoking program of study in six areas combined with the IB Program core elements. The strengths of the program are its academic rigor and well-rounded traditional liberal arts curriculum enhanced with an extended essay, inquiry into the theory of knowledge, research, creativity, action and service.

## IB - Education for a better world

For over 50 years, the IB Organization has shown that its students are well prepared for university work.

The IB Diploma Program is taken during both 11th and 12th grade

For more information, please visit our school website at [weber.wsd.net](http://weber.wsd.net) or contact our IB Coordinator, Marcia Kloempken, at [makloempken@wsd.net](mailto:makloempken@wsd.net)

*Weber High School had 6 IB courses that scored at or above the world average last year*

Pictured Below is one one of Weber High's IB Diploma recipients, Jordan Williams.

### **Course Recommendations:**

We recommend that students wishing to participate in the IB program take the following courses in 9th grade:

- Honors English
- Spanish, German, or Chinese
