- **A subgroup that scores in the lowest 5% of state ASPIRE testing as compared to state standard for 2 consecutive years is identified as a TSI group.**
- **35% of all students with disabilities sub-groups are TSI.**
- **ELL is less than 10 students so it doesn't meet the criteria for TSI designation**
- **No additional funding is offered. This is a warning of where there needs to be a concentration of effort.**
- **If the group doesn't improve school could be identified as a school in need of improvement.**
- **Opt-out doesn't help the school and at times could hurt/**
  - **Q- could we test in native languages?**

- **Data shows that we are improving.**
